

Sri Aurobindo Institute of Technology,Newsletter | Delve 25:1

Address by Chairman,SAGI

Dear Students, Faculty and Members of the Sri Aurobindo Group of Institutes, Since its founding in 1988, Sri Aurobindo Group of Institutes has been more than just an educational institution—it has been a place where knowledge meets purpose, where academic excellence is balanced with holistic growth. Over the years, we have nurtured countless bright minds,empowering them to turn their aspirations into reality.It fills me with immense pride to see our students and faculty embody this vision every day, pushing boundaries in disciplines ranging from engineering and technology to management. In today's dynamic world, success is shaped by innovation, adaptability and the willingness to learn beyond the classroom. Education is not just about acquiring knowledge; it is about developing the mindset to think critically, solve problems and lead with confidence. With top-ranked programs, strong industry ties and global partnerships, we are committed to equipping you with the skills and experiences needed to thrive in a rapidly evolving landscape. Challenges will come, but they are opportunities in disguise—stepping stones toward the future you envision for yourself. As we continue this journey together, I encourage each of you to embrace learning with passion, stay curious, and strive for excellence in everything you do. Your achievements define our legacy and we stand with you at every step. Through dedication and perseverance, there is no limit to what we can accomplish. Let us continue to learn, grow and make an impact—together.

Best wishes,
Shri Umesh Trivedi
Chairperson, Sri Aurobindo Group of Institutes

Address by Vice President

Dear Students, Faculty, and Well-wishers,

It is with immense pride and gratitude that I address you through this edition of our newsletter. At Sri Aurobindo Group of Institutes, we have always strived to create an environment that fosters academic excellence, innovation, and holistic development. Our mission is not just to educate but to empower individuals to become leaders of tomorrow, equipped with the knowledge, values, and resilience to navigate an ever-evolving world. The past 1year has been a testament to the dedication and hard work of our students, faculty, and staff. From academic to extracurricular accomplishments, each milestone reflects our collective commitment to excellence. As we move forward, let us continue to embrace challenges as opportunities and uphold the values that define us. I extend my heartfelt appreciation to everyone who has contributed to the growth and success of our institution. Together,let us aim higher, dream bigger, and work tirelessly to create a brighter future for ourselves and society. Wishing you all continued success and inspiration.

With appreciation
Mr. Kinshuk Trivedi
Vice President,
Sri Aurobindo Group of Institutes

Address by Director, SAGI

Dear Students, Faculty, and Esteemed Members of Sri Aurobindo Family,

It is my privilege to connect with you through this newsletter as we celebrate the journey of learning and growth at Sri Aurobindo Group of Institutes. Education is not merely the acquisition of knowledge but the foundation for building character, nurturing creativity, and shaping responsible global citizens. Our institution has always been a beacon of innovation and excellence, and I am incredibly proud of the strides we have made together. Each achievement, whether in academics, sports, or cultural endeavors, reflects the hard work, dedication, and collaborative spirit of our students and faculty. As we move forward, I encourage each of you to embrace curiosity, pursue your passions, and never shy away from challenges— every obstacle is an opportunity to learn and grow. I extend my heartfelt gratitude to our faculty for their unwavering commitment and to our students for their relentless pursuit of excellence. Together, let us continue to build a legacy of knowledge, innovation, and service to society.

Wishing you all a future filled with success, joy,and endless possibilities.

Best Wishes,
Mrs. Chani Trivedi
Director
Sri Aurobindo Group of Institutes

"The pursuit of excellence is a journey, not a destination. Keep moving forward."

Autocorrect can go straight to he'll.

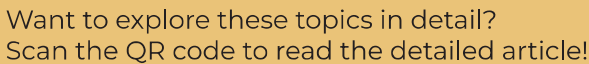

Associate Professor and Head, Department of Hospital Administration,
Sri Aurobindo Institute of Management and Science (SAIM & S),
Indore

With rising healthcare demands, rapid technological advancements, and patient-centred care models, the role of hospital administrators is more crucial than ever. From managing hospital operations to implementing AI-driven healthcare solutions, this field offers vast career opportunities.

- **Expanding Healthcare Industry** –Aging populations & chronic diseases drive demand.
- **AI & Telemedicine Integration** –Digital records, remote healthcare & automation.
- **Patient-Centric Approach** –Focus on quality care, efficiency & personalized treatment.
- **Sustainability in Healthcare** –Green hospitals & eco-friendly operations.

- **Hospital Management** –Oversee daily operations & quality care.
- **Healthcare Consultancy** –Improve hospital efficiency & strategy.
- **Health Information Management** –Secure & analyse patient data.
- **Public Health & Medical Tourism** –Lead global healthcare initiatives.

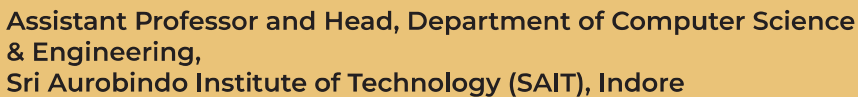

- Regulatory Compliance & Policy Changes
- Workforce Management & Burnout Issues
- Balancing Cost & Quality in Healthcare Services

What if a single breakthrough could make today's supercomputers look primitive? Microsoft's Majorana 1 chip is that breakthrough—a quantum processor unlike any before. Announced on February 19, 2025, this chip could unlock quantum computing's true potential by solving its biggest challenge: error correction.

Traditional quantum computers are fragile, with qubits highly sensitive to noise, requiring massive error correction. Majorana 1 takes a bold new approach with topological qubits, using Majorana fermions—exotic particles predicted in 1937. Unlike traditional qubits, which store data locally and are prone to errors, topological qubits store information in a distributed manner, making them far more stable.

- Qubit Type: Topological qubits using Majorana zero modes
- Material: Indium arsenide-aluminium hybrid structures for superconductivity

Classical computers are reaching their limits—Quantum Computing is the future!

From drug discovery and cybersecurity to climate modelling and financial risk analysis, quantum computers promise breakthroughs we never imagined possible. Unlike traditional computers, which rely on 1s and 0s, quantum computers use qubits, allowing them to process vast amounts of data simultaneously using superposition, entanglement, and quantum interference.

- **Faster Drug Discovery** –Simulate molecular interactions in seconds
- **Unbreakable Cybersecurity** –Next-gen encryption to counter quantum threats
- **Climate Change Predictions** –Model weather patterns with ultra-precision
- **Financial Market Optimization** –Predict risks and economic downturns instantly

- **Fragile Qubits** –Must be kept near -273°C
- **High Error Rates** –Quantum instability limits accuracy
- **Expensive & Limited** –Only tech giants like Google, IBM & Microsoft have access

The future is closer than you think! Many experts predict that by 2035, quantum computers will surpass classical systems in real-world applications.

Scan the QR code below to read the detailed article!

- Unbreakable Encryption – Quantum-proof security and new cryptographic methods
- Drug Discovery & Materials – Simulating molecules with unmatched accuracy
- AI & Machine Learning – Faster, more powerful AI models
- Climate & Sustainability – Processing vast climate data for better predictions

Quantum computing has long faced stability challenges, but Majorana 1 could change that. If it delivers, this isn't just an advancement—it's the beginning of a new era. The quantum revolution has begun. Are we ready?

Class Representative, 2nd Year, B. Tech [CSE], SAIT

Imagine a world where machines think, learn, and act on their own—optimizing cities, diagnosing diseases, and even driving cars. This isn't science fiction; it's the reality shaped by AI agents. These intelligent systems are revolutionizing industries, making decisions with precision, and enhancing human potential. From virtual assistants to autonomous vehicles, AI agents are not just transforming technology—they are redefining the future.

Scan the QR code to dive into the full article and explore the fascinating world of AI agents shaping our future.

TEDxSAIT

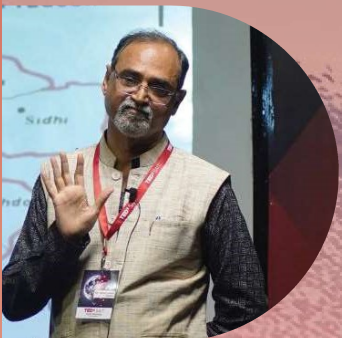

TEDx is a global initiative that brings TED's mission "Ideas Worth Spreading"—to local communities. Organized independently TEDx events spark conversations and inspire change. TEDxSAIT, hosted by Sri Aurobindo Institute of Technology, embraced the theme "The Art of Becoming", celebrating growth, reinvention, and self-discovery. These events are organized by passionate individuals who seek to uncover new ideas and to share the latest research in their local areas that spark conversations in their communities. Mr. Kinshuk Trivedi is Organizer and Ms. Chani Trivedi is Co-organizer of TEDx SAIT.

The incredible success of our TEDx event shines through the hard work and dedication of our amazing committees. The Registration Committee, led by Dr. Neelu Sharma, ensured a smooth check-in process, while the Anchoring and Nomination Committee, coordinated by Dr. Richa Darshan, selected the perfect hosts. Ms. Payal Choudhary led the Speaker Committee, curating a lineup of inspiring speakers. Prof. Mayank Shrivastava headed the Audio-Visual Committee, ensuring flawless tech, and Prof. Ankita Agnihotri's Stage Committee designed an engaging stage setup. Prof. Sunil Parihar and his Logistics and Hospitality Committee handled all arrangements, ensuring a comfortable experience for all attendees. Prof. Amit Holkar's Creative Placement Committee took care of the event's creative details, while Prof. Ranvijay Parmar's Printing and Stationery Committee prepared all the printed materials. The Design Committee, led by Prof. Aman Upadhyay, crafted the event's visual identity, and Prof. Kapil Bharadwaj's Website Committee maintained the online presence. Mr. Savan Kadole's Social Media Committee kept everyone engaged with real-time updates across platforms.

Mr. Chetan Sharma

Topic: Emotional Approach to Product Design
Key Insight: Empathy-driven design fosters deeper connections between products and users.

Mr. Nilesh Desai

Topic: Towards Sustainable Development from Perspectives - A Community Effort
Key Insight: Sustainability begins with empowered communities driving localized solutions.

Mr. Hari Krishnan

Topic: From Blackboards to bots. Education in the Times of AI
Key Insight: AI must be integrated into education to foster creativity, adaptability, and critical thinking.

Ms. Esha Nagar

Topic: Creating Your Own Everest
Key Insight: Life's challenges are opportunities to climb higher, set goals, and persevere.

Dr. Chetan Singh Solanki

Topic: Become a Climate Warrior
Key Insight: Action against climate change begins with renewable energy and sustainable practices.

Mr. Aayush Saxena

Topic: Lights, Camera, Restart!
Key Insight: Resilience and reinvention are essential for overcoming setbacks and thriving.

Dr. Nishant Khare

Topic: How Young Shape a Better Future?
Key Insight: Leadership is driven by empathy, vision, and bold actions to spark positive change.

Ms. Nistha Tripathi

Topic: The Myth of Having It All Figured Out in High School
Key Insight: Success isn't linear—embrace the journey or exploration, mistakes, and growth.

THE HONOR ROLL

Student Achievements

From Chess to Coding, TEDx to Science Models – A Showcase of Talent and Dedication

This year, our students have once again demonstrated exceptional talent and dedication, excelling in a wide range of academic and extracurricular competitions. From state-level chess tournaments to national programming certifications, their achievements reflect the spirit of excellence that defines our institution.

EXTRACURRICULAR TRIUMPHS

Our second-year students have also brought laurels to the college. **Kanishk Kukreja** emerged as the **winner of Sagi Xpress: The TEDx Speaker Hunt**, secured **2nd place** in the **science model competition**, and **won a prize in the BIS competition**. His achievements reflect a perfect blend of creativity and intellectual prowess.

A KEEN EYE : CREATIVE MIND

Rahul Akole, has achieved a remarkable feat by winning the **1st prize** in the short filmmaking competition at **Arena Animation Aurobindo**, where he was honored with the **Creative Mind Award**. His winning film stood out for its **exceptional creativity, compelling storytelling, and technical brilliance**, earning him this prestigious

ACADEMIC EXCELLENCE

Krishna Gelra, a third-year student, has made the institution proud by securing the runner-up position in a **state-level chess competition**. Additionally, Krishna excelled in the NPTEL certification courses, earning the **1st rank** in Programming and Data Structures using Python with an outstanding score of **91/100**, and scoring **90/100** in Programming in C.

TEAM SPIRIT: TOGETHER WE ACHIEVE MORE

Collaboration and teamwork have also been key to success this year. **Varun Pawar** and **Vansh Devda**, working as a team, claimed the **1st position** in the science model competition, showcasing their innovative thinking and scientific acumen.

Prince Malviya secured the **1st prize** in a short movie competition on **Mathematics Day**, additionally, **Prince Malviya, along with his teammates Saloni Patil and Priyansh Chauhan**, earned the 3rd prize in a science model competition on **National Science Day**, highlighting their innovative thinking and dedication to science.

Another second-year duo, **Parinidhi Kataiha** and **Riya Kosta**, earned **3rd place** in the poster-making competition during mathematics day, highlighting their artistic and scientific skills.

THE "COULD'VE BEEN ":

"Congratulations! This prestigious achievement goes to the one and only—who **almost made it** to the newsletter but somehow managed to slip through the cracks. Truly an impressive feat of stealth and elusiveness. We salute your unwavering commitment to staying just out of the spotlight. **Better luck next time!** "

RISING STARS: FIRST YEAR ACHIEVEMENTS

Our first-year students have already begun to make their mark. **Devraj Jha** secured the **1st position** in the BIS competition.

Ritesh Makwana won the **1st prize** in the DIY 3D model craft competition, demonstrating remarkable craftsmanship and innovation.

GAINING EXPERIENCE : INDUSTRY READY

Abhishek Chouhan successfully completed a **One-Month Internship** at Ypsilon IT Solutions and is certified in **Foundation of digital marketing course** by Udacity. He has also been an outstanding volunteer at multiple gatherings.

The Torchbearers, Alumni | SAIT

Alumni Insights: Inspiring Journeys from SAIT Indore

Aishwarya Mishra (2021, CSE)

Design Engineer II, **Cadence** Design Systems, Pune

After completing her B.Tech, Aishwarya pursued an M.Tech in **CSE from IIT Bombay** and secured an on-campus placement at Cadence. She credits time management and goal setting for her success.

Achievement: GATE AIR-5

Shivam Banchhod (2021, Civil)

Officer, Indian Army (**AIR 211**, UPSC CDS 2024)

Shivam's discipline and dedication helped him achieve **AIR 211 in UPSC CDS 2024**, securing a prestigious role in the Indian Army. His journey is a motivation for defense aspirants.

Govind Sharma (2021, CS)

CTO, Paygic (Payment Gateway Service Provider)
An entrepreneur at heart, Govind founded multiple startups, including Paygic. He has faced and conquered challenges in business development, fundraising, and marketing.

Achievements: MP's Top 100 Startups, Awarded by MP Governor, Multiple DPIIT-recognized startups

Rajesh Patel (2019, ME)

Currently working as an Assistant Manager in the Tunnel Boring Machine (TBM) Department at THDC India Ltd..

Secured **AIR 305 in GATE** and gained admission to **IIT Delhi** for higher studies.

Alumni Testimonials

Looking back at my time at SAIT, I feel truly grateful for the experiences and learning that shaped my career. The college provided a strong academic foundation, hands-on learning, and an environment that encouraged curiosity and innovation.

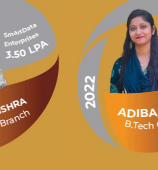

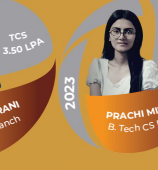

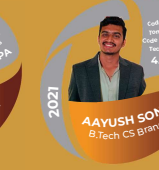

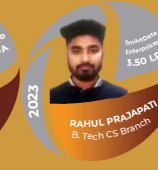

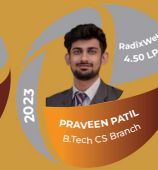

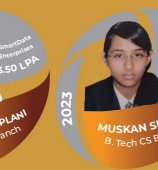

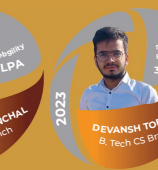

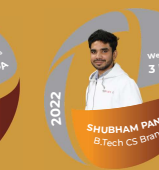

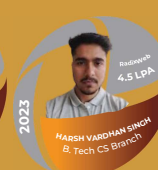

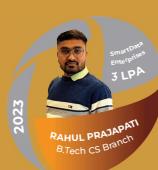

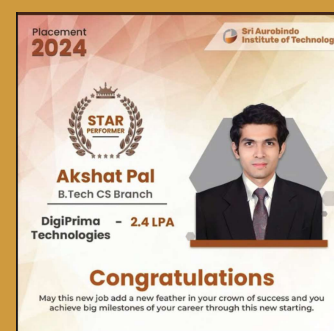

The guidance of my professors, access to research opportunities, and participation in various technical activities helped me gain both technical knowledge and essential soft skills. I spent most of my time in labs and the library, exploring new ideas and working on projects that challenged me to think beyond textbooks.

One of the most memorable aspects of my journey was the collaborative spirit at SAIT, Whether it was brainstorming sessions with faculty and seniors, working on challenging projects, or participating in hackathons and workshops, every moment contributed to my growth. I also had the opportunity to collaborate with students from other departments like CSE and Mechanical, which broadened my perspective and problem-solving approach.

The friendships, discussions, events, and experiences I had at SAIT will always be close to my heart. To the current students, I would say-make the most of your time, take on challenges, and never stop learning. Thank you, SAIT, for being such an important part of my journey

Warm regards,
Ajeet Vishwakarma
